All sanded orders that need drilling shall pay emery price.

Sanded ware to be done with sand only.

All special listed ware, when done with sand, shall pay 25 per cent. less than emery list.

All gauged ware shall pay 1 cent extra per dozen.

All imported cut stoppers not otherwise specified shall pay two (2) cents per dozen more than corresponding size of regular stoppers.

All test stoppers 1 ounce and larger shall pay 2 cents extra per dozen when not specified in list.

All ware finished with the tool having outside screw finish when stoppered, shall pay 3 cents above the usual price for stoppering. This does not apply where the screw is cut in the mold and tool finished.

Workmen shall receive pay for all ware bursted or broken after being stoppered.

RULES and REGULATIONS

Rule 1. No firm shall be allowed at any one time more than one apprentice to each seven journeymen Union stopperers employed. Apprentices shall serve four years. When journeymen are laid off, apprentices shall be laid off in the same ratio. Apprentices wages shall be 75 per cent. of journeymen wages. However, because of prevailing conditions it is agreed that for the year of 1920-1921 firms shall be allowed an apprentice for each seven union stopper grinders employed.

Rule 2. Eight hours shall constitute a day's work in the Stoppering Department. Each day's work to start at 7 A. M.

Rule 3. Every member shall give one week's notice before quitting a place of employment, and must receive one week's notice before he can be discharged.

Rule 4. No member shall be granted a card to change his place of work until he presents to the Financial Secretary a card from the Factory Committee showing him to have worked a week's notice or to have been released by the company.

Rule 5. When work becomes slack in any shop each man, including apprentices, shall receive an equal share of work to be done.

Rule 6. All stoppers shall be chipped off before the stopper grinders receive them.
